

CSCE 190 Design drawings

Assignment Name:

Group Name: G.T.S.

Team Members who contributed:

First Name	Last Name	Email
Nicholas	Brock	nbrock@email.sc.edu
Gabriel	Hill	gdh3@email.sc.edu

Duayne	Wright	duayne@email.sc.edu

Problem Statement:

Our users tend to get tired of constantly digging to find music that fits their needs and are in search to get quality music that accurately reflects how they feel. Our solution is to get away from the mainstream music applications such as YouTube, Spotify and Apple Music, and provide a way for users to effortlessly sift through the musical underground.
